facilitated by EFI

Seminar rationale and questions

- **Main rationale:** informed discussion about the Green Deal and its impacts on forest/forestry with a focus on integrated forest management
- **Integrated forest management:** management approaches that integrate the provision of different forest ecosystem services within the same spatial context

Questions to be addressed:

- What approach should Europe take/implement on forests in the Green Deal?
- How to deal with key issues such as climate change, biodiversity, bioeconomy and societal expectations, and also trade-offs between these issues when it comes to forest management?
- What is the impact of Covid on the Green Deal in relation to forests? What needs to be done?
- What is the role of integrated forest management approaches that aim to integrate forest use and conservation in European policy?

European Network Integrate

“The European network INTEGRATE promotes and advances forest management approaches for the integration of nature conservation into sustainable forest management at three levels: the decision-making policy level, the level of forest practitioners/managers, and the level of research and academic knowledge”

- Initiative driven by country representatives and their topical interests, currently 19 European countries participating, European Commission observer
- Chairs: DE (2017), CZ (2018), PL (2018/2019), DK (2019/2020), CH (2020/2021), ES (from spring 2021 onwards)
- EFI facilitates the network within the “FoReSite” project funded by German BMEL
